

THE UNIVERSITY OF MICHIGAN CLASS DEFINITIONS

Purpose

This document provides the information necessary to classify all expenditures appropriately. Please direct questions on Class use to the Cost Reimbursement Office at (734) 647-3843 or Cost.Reimbursement.Office@umich.edu.

The Class chartfield is mandatory in the University's financial system. Class is used specifically for the following purposes:

- Preparing the Facilities and Administrative Cost Proposal (F&A Proposal) for the federal government
- Financial reporting for the University's audited financial statements
- Financial reporting to the State of Michigan

To maintain the integrity of the University's financial records, it is imperative that Class be used appropriately and consistently among like transactions.

Mandatory Exclusion of Certain Expenditures from the F&A Proposal

The federal government requires that certain costs be excluded from the F&A proposal. To meet this requirement, the University established the Policy on Indirect Cost Recovery Excluded (ICRX) Expenses. ICRX expenses are identified by replacing the final digit in the Class with an X.

The most common ICRX expenditures are:

- Alumni Activities
- Entertainment
- Fund Raising
- Hosting (when considered entertainment)
- Lobbying
- Public Relations

Refer to the Policy on ICRX Expenditures for a detailed discussion of these items, and how to treat them for accounting purposes. The policy is available on the Cost Reimbursement Office web site. You must log in with your username and Kerberos password to access this site:
