The Regents of the University of Michigan

In our opinion, the accompanying consolidated statement of net assets and the related consolidated statements of revenues, expenses and changes in net assets and of cash flows present fairly, in all material respects, the financial position of the University of Michigan (the "University") at June 30, 2010 and 2009, and the changes in its financial position for the years then ended in conformity with accounting principles generally accepted in the United States of America. These financial statements are the responsibility of the University's management. Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these statements in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

As described in Note 1 to the financial statements, the University adopted the provisions of Governmental Accounting Standards Board ("GASB") Statement No. 53, *Accounting and Financial Reporting for Derivative Instruments*, as of July 1, 2009.

The Management's Discussion and Analysis ("MD&A") on pages 36 through 52 is not a required part of the financial statements but is supplementary information required by GASB. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the MD&A. However, we did not audit the information and express no opinion on it.
